

# WORLD STROKE DAY IS OCTOBER 29th

## ACT NOW!

**1** Learn the stroke warning signs.

**F. A. S. T.**

Face Drooping   Arm Weakness   Speech Difficulty   Time to Call 911

\* Additional signs of stroke include sudden trouble seeing, dizziness, confusion, severe headache, or weakness on one side of the body.

**2** Share the stroke warning signs with as many friends and family members as you can.

**Strokes can happen at any age.  
Remember that recognizing and responding to a stroke emergency immediately can lead to quick treatment and may even save a life.**
